GUIDELINES AND MINIMUM REQUIREMENTS TO ESTABLISH SCHOOL OF NURSING

Guidelines for Establishment of New General Nursing and Midwifery School of Nursing

1. Any organization under: (i) Central Government/State Government/Local body (ii) Registered Private or Public Trust  (iii) Missionary or any other organization registered under Society Registration Act (iv) Company incorporated under section 25 of company’s act are eligible to establish General Nursing and Midwifery School of Nursing.

2. Any organization having 100 bedded Parent (Own) hospital is eligible to establish General Nursing Course.

3. Above organization shall obtain the Essentiality Certificate/No Objection Certificate for the General Nursing and Midwifery programme from the respective State Government. The institution name alongwith Trust Deed/Society address shall be mentioned in No Objection Certificate/Essentiality Certificate.

4. An application form to establish Nursing programme is available on the website viz., www.indiannursingcouncil.org, which shall be downloaded. Duly filled in application form with the requisite documents mentioned in the form shall be submitted before the last date as per the calendar of events of that year.

5. The Indian Nursing Council on receipt of the proposal from the Institution to start nursing programme, will undertake the **first inspection** to assess suitability with regard to physical infrastructure, clinical facility and teaching faculty in order to give permission to start the programme.

6. After the receipt of the permission to start the nursing programme from Indian Nursing Council, the institution shall obtain the approval from the State Nursing Council and Examination Board.

7. Institution will admit the students only after taking approval of State Nursing Council and Examination Board.

**Note:**

- If, no admission are made for two consecutive academic years then it shall be considered as closed for the said programme.
- If the institution wants to restart the programme they have to submit the first inspection fees within 5 years i.e, from the year they did not have admissions. Guidelines of the year wherein institute was first permitted will be applicable.
Minimum Requirement to establish General Nursing and Midwifery Programme

PHYSICAL FACILITIES

Teaching Block:

The School of Nursing should have a separate building/teaching block*. For a School with an annual admission capacity of **40-60** students, the constructed area of the School should be **23720** square feet.

The School of Nursing can be in a rented/leased building for first two years. After two years institute shall have own building in an institutional area. Otherwise Rs.50,000 penalty has to be paid for every year for 3 years. During the penalty period institute shall be able to construct own building. If the institution is not able to have their own building, permission/suitability will be withdrawn and however institution will be given chance to submit the proposal towards first inspection with the latest guidelines.

Adequate hostel/residential accommodation for students and staff should be available in addition to the above mentioned built up area of the Nursing School respectively. The details of the constructed area are given below for admission capacity of **40-60** students:

Note:

*1. Nursing Educational institution should be in Institutional area only and not in residential area.
*2. If the institute has non-nursing programme in the same building, Nursing programme should have separate teaching block.
*3. Shift-wise management with other educational institutions will not be accepted.
*4. Separate teaching block shall be available if it is in hospital premises.
*5. Proportionately the size of the built-up area will increase according to the number of students admitted.
*6. School and College of nursing can share laboratories, if they are in same campus under same name and under same trust, that is the institution is one but offering different nursing programmes. However they should have equipments and articles proportionate to the strength of admission. And the class rooms should be available as per the requirement stipulated by Indian Nursing Council of each programme.

Hostel Block:

Hostel Provision is Mandatory and shall also be owned by the institute within the period of two years

</tbody>
</table>

a) **Nursing Practice Laboratory**: There should be demonstration beds with dummier, mannequins in proportion to the number of students practicing a nursing procedure at a given point of time (the desired ratio being 1 bed: 6 practicing students).

It should be fully equipped with built-in-cupboards and racks. Wash-basins with running water supply, electric fitting, adequate furniture like table, chairs, stools, patient lockers footsteps etc. Sufficient Necessary inventory articles should be there i.e. at least 10-12 sets of all items needed for the practice of nursing procedure by the students.

b) **Community Practice Laboratory**: It should have all required articles needed for practicing nursing procedures in a community set-up.

c) **Nutrition Laboratory**: It should have facilities for imparting basic knowledge of various methods of cooking for the healthy as well as for the sick. The furnishing and equipment should include work-tables, cooking cutlery, trays, plates, dietetic scales, cooking utensils, microwave, racks/ shelves, refrigerator, pressure cookers, mixie and cupboards for storage of food items. The food items shall be purchased for the conduct of practical classes as and when required. Sets of crockery and
cutlery for preparation, napkins for serving and display of food also should be there.

d) **Computer Laboratory:** It can be shared with other departments.

e) **OBG & Pediatric Laboratory:** Laboratory should have equipment and articles as mentioned in laboratory equipments and articles.

f) **Pre-clinical Science lab:** It is the laboratory of Biochemistry, Anatomy, Microbiology. The laboratory articles mentioned in the laboratory equipment & articles shall be available.

3. **Auditorium**

   Auditorium should be spacious enough to accommodate at least double the sanctioned/actual strength of students, so that it can be utilised for hosting functions of the college, educational conferences/ workshops, CNES examinations etc. It should have proper stage with green room facilities. It should be well – ventilated and have proper lighting system. There should be arrangements for the use of all kinds of basic and advanced audio-visual aids.

   **OR**

   **Multipurpose Hall**

   It should have multipurpose hall, if there is no auditorium in the school.

4. **Library**

   There should be a separate library in the school. It should be easily accessible to the teaching faculty and the students, during school hours and extended hours also.

   It should have comfortable seating arrangements for half of the total strength of the students and teachers in the school.

   There should be separate budget for the library. The library committee should meet regularly for keeping the library updated with current books, journals and other literature. Internet facility should be provided in the library.

   The library should have proper lighting facilities and it should be well-ventilated. It should have a cabin for librarian with intercom phone facility.
There should be sufficient number of cupboards, books shelves and racks with glass doors for proper and safe storage of books, magazines, journals, newspapers and other literature. There should be provision for catalogue-cabinets, racks for students bags etc., book display racks, bulletin boards and stationery items like index cards, borrowers cards, labels and registers. Current books, magazines, journals, newspaper and other literature should be available in the library.

A minimum of 500 of different subject titled nursing books (all new editions), in the multiple of editions, 3 kinds of nursing journals, 3 kinds of magazines, 2 kinds of newspapers and other kinds of current health related literature should be available in the library.

5. **Offices Requirements**

   a. **Principal’s Office**
   There should be a separate office for the Principal with attached toilet and provision for visitor’s room. Independent telephone facility is a must for the Principal’s office with intercom facility connected/linked to the hospital and hostel.

   b. **Office for Vice-Principal**
   There should be a separate office for the Vice-Principal with attached toilet and provision for visitor’s room. Independent telephone facility is a must for Vice-principal’s office with intercom facility connected/linked to the hospital and hostel.

   c. **Office for Faculty Members**
   There should be adequate number of office rooms in proportion to the number of teaching faculty. One office room should accommodate 2 teachers only. Separate toilet facility should be provided for the teaching faculty with hand washing facility. There should be a separate toilet for male teachers.

   d. One separate office room for the office staff should be provided with adequate toilet facility. This office should be spacious enough to accommodate the entire office staff with separate cabin for each official. Each office room should be adequately furnished with items like tables, chairs, cupboards, built-in racks and shelves, filing cabinets and book cases. Also there should be provision for equipments like photocopy, computers and telephone.
6. **Common Rooms**

A minimum of 3 common rooms should be provided. One for the teaching faculty, one for the student and one for the office staff. Sufficient space with adequate seating arrangements, cupboards, lockers, cabinets, built-in-shelves and racks should be provided in all the common rooms. Toilet and hand washing facilities should be made available in each room.

7. **Record Room**

There should be a separate record room with steel racks, built-in shelves and racks, cupboards and filing cabinets for proper storage of records and other important papers/documents belonging to the college.

8. **Store room**

A separate store room should be provided to accommodate the equipments and other inventory articles which are required in the laboratories of the college. This room should have the facilities for proper and safe storage of these articles and equipments like cupboards, built-in-shelves, racks, cabinets, furniture items like tables and chairs. This room should be properly lighted and well-ventilated.

9. **Room for Audio-Visual Aids**

This room should be provided for the proper and safe storage of all the Audio-Visual Aids. The School should possess all kind of basic as well as advanced training aids like chalk boards, overhead projectors, slide and film-strip projector, models specimen, charts and posters, T.V. & V.C.R., Photostat machine, tape recorder and computers, LCD, laptop.

10. **Other Facilities**

Safe drinking water and adequate sanitary/toilet facilities should be available for both men and women separately in the school. Toilet facility to the students should be there along with hand washing facility.

11. **Garage**

Garage should accommodate a 50 seater vehicle.
12. **Fire Extinguisher**

   Adequate provision for extinguishing fire should be available as per the local bye-laws.

13. **Playground**

   Playground should be spacious for outdoor sports like Volleyball, football, badminton and for Athletics.

**Hostel Facilities:**

There should be a separate hostel for the male and female students. It should have the following facilities.

1. **Hostel Room**
   It should be ideal for 2 students. The furniture provided should include a cot, a table, a chair, a book rack, a cupboard or almirah for each student.

2. **Toilet and Bathroom**
   Toilet and bathroom facilities should be provided on each floor of the students hostel at the ratio of one toilet and one bathroom for 2-6 students. Geysers in bathroom and wash basins should also be provided.

3. **Recreation**
   There should be facilities for indoor and outdoor games. There should be provision for T.V., radio and video cassette player.

4. **Visitor’s Room**
   There should be a visitor room in the hostel with comfortable seating, lighting and toilet facilities.

5. **Kitchen & Dining Hall**
   There should be a hygienic kitchen and dining hall to seat at least 80% of the total students strength at one time with adequate tables, chairs, water coolers, refrigerators and heating facilities. Hand washing facilities must be provided.

6. **Pantry**
   One pantry on each floor should be provided. It should have water cooler and heating arrangements.

7. **Washing & Ironing Room**
   Facility for drying and ironing clothes should be provided in each floor.
8. **Sick Room**
   A sick room should have a comfortable bed, linen, furniture and attached toilet. Minimum of 5 beds should be provided.

9. **Room for Night Duty Nurses**
   Should be in a quiet area.

10. **Guest Room**
    A guest room should be made available with toilet facility.

11. **Warden’s Room**
    Warden should be provided with a separate office room besides her residential accommodation. Intercom facility with school & hospital shall be provided.

12. Telephone facility accessible to students in emergency situation shall be made available.

13. **Canteen**
    There should be provision for a canteen for the students, their guests, and all other staff members.

14. **Transport**
    School should have separate transport facility under the control of the Principal. 25 and 50 seats bus is preferable.

**Crèche**

There should be a crèche in the college campus.

**Staff for the Hostel:**

1. **Warden (Female) -3:** Qualification- B.Sc. Home Science or Diploma in Housekeeping/Catering. Minimum three wardens must be there in every hostel for morning, evening and night shifts. If number of students are more than 150, one more warden/ Asst. Warden/ House keeper for every additional 50 students.

2. **Cook-1:** For every 20 students for each shift.

3. **Kitchen & Dining Room helper- 1:** For every 20 students for each shift.

4. **Sweeper-3**

5. **Gardener-2**

6. **Security Guard/ Chowkidar-3**
1. Notice/Circular for prohibition of Ragging shall be available on
   - Notice Boards
   - Admission Brochure/Prospectus
2. Display Posters/Charts on Prohibition of Ragging in common places.
3. Constitute :-
   - Anti ragging committee with name designation & Telephone no.
   - Anti ragging squad
4. Leaflet given to fresher’s students to detail out the telephone no. mentioned to
   whom to approach in case of ragging including Anti ragging committee/squad
   addresses and telephone numbers.
5. Constituting a mentoring cell consisting of students volunteering to be mentors for
   fresher’s (one mentor of six fresher’s and one mentor of a higher level for six
   mentors of the lower level.)
6. Affidavit (1) by the student (2) by the parent shall be taken as per the circular
   no.22-1 O(Web)-INC (Part) dated 14th May 2013
7. Anti-ragging help line for students.
8. Complaint box placed at places accessible to students.

**NURSING TEACHING FACULTY**

The Principal should be the administrative head of the school. He/She should hold
qualification as laid down by INC. The Principal should be the controlling authority for
the budget of the school and also be the drawing and disbursing officer. The Principal and
Vice-Principal should be Gazetted officers in Government Schools and of equal status
(though non-Gazetted) in non-government Schools.

Qualification of Teaching Staff for General Nursing and Midwifery programme
with 40 students intake:

**Ratio of Female and Male Nursing Teachers in School Programme**
- For every 7 female nursing teacher there shall be 3 male nursing teacher i.e.
  7:3 female to male nursing teacher ratio.
[i.e., maximum of 30% will be male] it does not direct that female teachers to be replaced
by male.

<td><strong>12</strong></td>
</tr>
</tbody>
</table>

**Note:**

- Teacher student ratio should be 1:10 on sanctioned strength of students.
- One of the Tutors need to stay at the community health filed by rotation.
- The salary structure of the teaching faculty in private Schools of Nursing should not be less than what is admissible in the schools of the nursing under State/Central Government.
- Nursing service personnel should actively participate in instruction, Supervision, guidance and evaluation of student in the clinical and field/ community practice areas. The teaching faculty of the School of nursing should work in close coordination with nursing service personnel.
- The teaching faculty of the school and the nursing service personnel should be deputed to attend short term educational courses/ workshops/ conferences etc. to update their knowledge.
- It is mandatory for school authorities to treat teaching faulty of the school of nursing on duty when nominated/ selected for the purpose of examination or inspection or inspection by the Council.
- All nursing faculty including Principal shall spend at least four hours each day in the clinical area for clinical teaching and / or supervision of care by the students.
- 50% of the non-nursing subjects should be taught by the nursing teachers. However, it will be supplemented by the guest faculty who are doctors/PG Qualification in the requisite subject as per INC norms. **Nursing teachers who are involved in non-nursing subjects shall be examiners for the programme.**

**EXTERNAL LECTURERS**

Besides the regular teaching faculty in the school of Nursing, there should be provision for external lectures for teaching the students. They should possess the desired qualification in the respective subjects which are to be taught. Remuneration of these external lecturers is to be paid as per the institute/ govt. policy. The external lecturers may comprise Nursing experts Medical Faculty and scientists, General Educationist including teaching experts in English, computer Education. Physical Education/ Yoga, Psychologists, Sociologists, Hospital Dieticians, Nursing Service personnel like Nursing
Superintendent, Ward In charge or Ward sister, Health Economist/ Statistician etc. working in or outside the institution.

**School Management Committee**

Following members should constitute the Board of management of the school.

- Principal
- Vice- Principal
- Tutor
- Chief Nursing Officer/
- Nursing Superintendent
- Representative of Medical Superintendent
- Administrative staff for School of Nursing

**Additional Staff for School of Nursing**

- Stenographer/Personal Assistant One
- Senior Clerk cum Cashier/ Accountant One
- Junior Clerk cum Typist One
- Librarian One
- Laboratory Attendant One
- Chowkidar/ Watchman Two
- Driver One for each Vehicle
- Cleaner One for each Vehicle
- Peon Three
- Sweeper/ Safai Karmachari Two
- Machine (Duplicating/ Xerox) Operator One

**NB: Provision should be made to have leave reserve staff in addition to the regular staff according to rules**

**Budget**

In the overall budget of the Institution, there should be provision for school budget under a separate head. Principal of the school of Nursing should be the drawing and disbursing officer.
School of nursing should have a **100** bedded Parent (Own Hospital) for 40-60 annual intake in each programme:

i. **Distribution of beds in different areas**
   - Medical 30
   - Surgical 30
   - Obst. & Gynaecology 30
   - Pediatrics 20
   - Ortho 10

ii. **The size of the Hospital/Nursing Home for affiliation:**
   a. Should not be less than **100** beds apart from having own hospital.
   b. Maximum 3 Hospital can be attached with 100 beds each.

iii. **Bed Occupancy of the Hospital should be minimum 75%**.

vi. **Other Specialties/Facilities for clinical experience required are as follows:**
   - Major OT
   - Minor OT
   - Dental
   - Eye/ENT
   - Burns and Plastic
   - Neonatology with Nursery
   - Communicable disease
   - Community Health Nursing
   - Cardiology
   - Oncology
   - Neurology/Neuro-surgery
   - Nephrology etc.
   - ICU/ICCU

v. There should be a variety of patients of all age groups in all the clinical areas where the students are posted for obtaining the requisite learning experiences.

vi. Affiliation of psychiatric hospital should be of minimum 30-50 beds.

vii. The Nursing Staffing norms in the affiliated Hospital should be as per the INC norms.

viii. The affiliated Hospital should give student status to the candidates of the nursing programme.

ix. Affiliated hospitals should be in the radius of **15-30 kms**.

x. **1:3** student patient ratio to be maintained.

xi. For Tribal and hilly area the maximum distance is **50 km**.
If the institution is having both General Nursing and Midwifery and B.Sc(N) programme, it would require affiliated hospital for 40-60 annual intake in each programme to maintain 1:3 student patient ratio.

4. **Affiliation**

If all the required learning experience are not available in the parent hospital, the students should be sent to affiliated hospital/ agencies/ Institutions where it is available.

**Criteria for Affiliation**

The types of experience for which a nursing school can affiliate are:

- Community Health Nursing
- Communicable diseases
- Mental Health (Psychiatric) Nursing
- Specialities like Cardiology, Neurology, Oncology, Nephrology etc.

The Physical facilities staffing and equipment of the affiliated hospitals should be of the same standard as required in the parent hospital.

The Staff of the selected hospital should be prepared to recognize student status and their educational programme.

**Distribution of Beds**

At least one third of the total number of beds should be for medical patients and one third for surgical patients. The number of beds for male patients should not be less that 1/6th of the total number of beds i.e. at least 40 beds. There should be minimum of 750 deliveries per year (for annual admission capacity of 20 students) Provision should be made for clinics in health and family welfare and for preventive medicine.

**Staffing**

1. Chief Nursing Officer (C.N.O) - for 500 Beds and above. (Qualification as for Principal, SON)
2. Nursing Superintendent (N.S)-1 (Qualification as for Principal, SON).
3. Deputy Nursing Superintendent (D.N.S)-1 (qualification as for vice-principle, SON).
4. Assistant Nursing Superintendent (A.N.S)-2 and for every additional 50 beds one more (qualification as for vice- Principle, SON).
NORMS RECOMMENDED BY EXPERTS COMMITTEE ON HEALTH MANPOWER PRODUCTION AND MANAGEMENT (RESOLUTION OF FOURTH CONFERENCE OF CENTRAL COUNCIL OF HEALTH AND FAMILY WELFARE, ON NURSING, 1995).

</tr>
</tbody>
</table>

**Justification**

1. Needs may vary from one hospital to another,Depending on its size and service rendered, more staff than anticipated will be required.
2. Special attention is needed for supervision of patient care in the evening and night shifts.
3. 30% leave reserve posts are mandatory.

**Other point to be considered**

a. The staff of the parent hospital should be strictly as per the criteria laid down by INC in terms of doctors, nurses and paramedical staff.
b. Wards/Area/OPDs/OTs/Clinical departments etc. must have adequate coverage of the staff in all the shifts to ensure that students are only for attending clinical experience in these areas and not utilized for service purposes.
c. Continuing/ in-service education programme must be attended by all staff nurses to keep themselves abreast with latest technologies and sophistication used in day to day patient care in these areas.

**Community Health Nursing Field Practice Area**

The students should be sent for community health nursing experience in urban as well as rural field area. Institute can be attached to primary health centre. A well setup field teaching centre should be provided with facilities for accommodation of at least 10-15 students and one staff member at a time. Peon, cook and chowkidar should be available at health centre. Each school of Nursing should have its own transport facilities and it must be under direct control Principal. The security of staff and students should be ensured.
ADMISSION TERMS AND CONDITIONS

1. Minimum education eligibility criteria for admission to GNM:
   - 10+2 with 40% marks from any recognized board. However Science is preferable
   - Candidates are also eligible from State Open School recognized by State Government and National Institute of Open School (NIOS) recognized by Central Government.
   - Registered ANM
   - 10+2 vocational ANM course from the school recognized by Indian Nursing Council
   - 10+2 Health care Science – Vocational stream from a recognized CBSE board/State/Centre

   For foreign nationals
   - The entry qualification equivalency i.e., 12th standard will be obtained by Association of Indian Universities, New Delhi. Institution, State Nursing Council will be responsible to ensure that the qualification and eligibility will be equivalent to what has been prescribed as above

2. Reservation
   a) For disabled candidates: 3% Disability reservation to be considered with a disability of locomotor to the tune of 40% to 50% of the lower extremity and other eligibility criteria with regard to age and qualification will be same as prescribed for each nursing programme.

      **Note:** A committee to be formed consisting of medical officer authorized by medical board of state government and a nursing expert in the panel which may decide whether the candidates have the disability of locomotor of 40% to 50%.

   b) 5% is relaxed for SC/ST candidates
   c) Any other quotas as per the State Govt. under the reservation policy

      **Note:** Quotas shall be applicable within the sanctioned number of the seats sanctioned and not above it.

3. Admission of students shall be once in a year.

4. Students shall be medically fit.

5. Minimum age for admission will be 17 years. (as on 31st December of that year) The upper age limit is 35 yrs. For ANM/ for LHV, there is no age bar.
Admission / Selection Committee
This committee should comprise of:
- Principal
- Vice-Principal
- Senior Tutor
- Chief Nursing Officer or Nursing Superintendent

ADMISSION STRENGTH
1. More than 60 students can be sanctioned (maximum 100) if the institution has a parent-medical college or parent hospital having more than 300 beds.

Health Services
There should be provisions for the following health services for the students.
   (a) An annual medical examination.
   (b) Vaccination against Tetanus, hepatitis B or any other communicable disease as considered necessary.
   (c) Free medical care during illness.
   (d) A complete health record should be kept in respect of each individual student. The question of continuing the training of a student, with long term chronic illness, will be decided by the individual school.

Records
Following are the minimum records which needs to be/should be maintained in the school
a) For Students
   1. Admission record
   2. Health record
   3. Class attendance record
   4. Clinical and Field Experience record
   5. Internal assessment record for both theory and practical
   6. Mark Lists (State Council/Board Results)
   7. Record of extracurricular activities of student (both in the school as well as outside)
   8. Leave record
   9. Practical record books – Procedure book and Midwifery record book to be maintained as prescribed by INC

b) For each academic year, for each class/batch
   1. Course contents record (for each subjects)
   2. The record of the academic performance
   3. Rotation plans for each academic year
   4. Record of committee meetings
5. Record of the stock of the school
6. Affiliation record
7. Grant-in-aid record (if the school is receiving grant-in-aid from any source like state Govt. etc.)
8. Cumulative record.

Record of educational programmes organized for teaching faculty and student, both in the school as well as outside.
Annual reports (Record of the achievement of the school prepared annually.
School of nursing should possess detailed and up-to-date record of each activity carried out in the school.

Transcript

All institutions to issue the transcript upon completion of the course and to submit one single copy of transcript per batch to respective State Nursing and Midwifery Registration Council.
GENERAL NURSING AND MIDWIFERY

Duration

The Diploma Course in General Nursing and Midwifery shall be of three years duration.

Year-wise distribution of weeks, days and hours of the course:

Total hours per week per student shall be 42 including classroom instruction and clinical field practice

<table>

Out of 52 weeks in one calendar year 6 weeks are deducted in First year and Second year.

- 4 weeks vacation
- 1 week preparation leave
- 1 week of Examination.

* Third year: first six months = 24 weeks
  - 2 weeks vacation
Second six months = 24 weeks
  - 1 week preparation
  - 1 week Examination

Night duty should be given in clinical area(s) in rotation
* 43 hours per week for clinical and 5 hours per week for theory.

The students posted in the clinical areas should be accompanied by teaching faculty of the school.

The same practice must be followed when student are posted for requisite clinical experience to affiliated Hospital/Agency /Institution.

The Nursing Service personnel must actively participate in supervising, guiding and evaluating students in the hospital wards, health centers and in the community.

1:10 teacher student ratio to be maintained during the supervised clinical practice

Examination guidelines

1. Shall have one regular examination followed by supplementary examination in a year.

2. The candidates if fail in more than two subjects in any nursing programme they can be promoted to next year.

3. A candidate can take any number of attempts with a condition that maximum period allowed is 6 years. However all papers need to be cleared before appearing in the final examination.

4. No institution shall submit student average internal marks more than 75% i.e., if 40 students are admitted in a course than the average score of the 40 students shall not exceed 75%.

   Example of 5 students: A=25, B=20, C=22, D=21, E=24
   Average score=89.6%

   This will not be accepted by the SNRC.

Eligibility for Admission to Examination

A candidate shall be eligible for the admission to the state Council / Board examination if the Principle of the school certificate that:

(a) She / he has completed not less than eleven months of the course.
(b) She / he have attended 75% of the formal instructions given on each subject and 75% of the clinical field experience in each area / subject separately during the academic year, however, the total clinical / field experience prescribed must be completed before the final council / Board examinations and before the issue of diploma.
   (The diploma shall not be awarded to the student till she / he has completed the clinical / field requirements.
(c) The overall performance of the student and her/his conduct during the entire academic year shall be satisfactory.
(d) The student has passed in the internal assessment in each subject and practical(s).
(e) The record of practical experience is complete.
   (The principle shall send to the Council / board the internal assessment for each subject, i.e. both theory and practical (S) before the start of the examination along with the examination form).
D. GRADING OF EXAMINATION

Examination shall be graded on aggregate marks of the entire three and half years of the training programme, as follows:

<table>
<thead>
<tr>
<th>Grade</th>
<th>Marks</th>
</tr>
</thead>
<tbody>
<tr>
<td>Distinction</td>
<td>80% and above</td>
</tr>
<tr>
<td>First Division</td>
<td>70% to 79%</td>
</tr>
<tr>
<td>Second Division</td>
<td>60% to 69%</td>
</tr>
<tr>
<td>Pass</td>
<td>50% to 59%</td>
</tr>
</tbody>
</table>

E. THEORY EXAMINATION

1. Nursing teacher with minimum five years of teaching experience (recent) in a particular subject may be appointed as paper setters and examiners for that particular subject only.
2. Question paper should have a combination of essay, short answer and objective type question (Situation based Questions)
3. All units of a subject and sub-subject should be given due weightage in accordance with the instructional hours prescribed.

F. PRACTICAL EXAMINATION

1. Practical examination is to be conducted in the respective clinical area.
2. Nursing teacher with minimum of five years of teaching/clinical teaching experience in a particular subject/clinical area may be appointed as practical examiner.
EVALUATION

INTERNAL ASSESSMENT

1. There shall be 25% internal assessment for all theory papers and 50% Internal assessment for all the practical.

2. A regular and periodic assessment for each subject and clinical / field experience is to be carried out.

3. For the purpose of internal assessment there shall be written test in each subject taken by the respective teacher each month.

The student shall be required to maintain the Practical record book and report of observation visits and diary for assessment must also be used. Marks shall be allotted for each of the following:
   a) Case study
   b) Case presentation
   c) Nursing care plan
   d) Maintenance of record books (Procedure Book and Midwifery Record book).
   e) Daily diary.
   f) Area wise clinical assessment is to be carried out. Minimum two assessments are required in each clinical area.

4. Regular record of theory and practical is to be maintained. Task oriented assessment is to be undertaken. Assessment shall be minted by teacher for each student each month. This can be checked by the Council/Board. Principal to sign all the records of examination. It should be displayed on the notice board for the information of the students.

5. A Candidate must secure 50% marks in internal assessment separately in each theory and practical. To be successful a student must get 50% marks in the internal as well as Council or Board Examination of each year.

6. For a student who appears for any supplementary examination her/his fresh internal assessment in the failed subject (s) / practical (s) is to be sent to the Council/Board.

7. State Nursing Council / Board should prepare a model perform for performance evaluation for each of the clinical area and circulate to all; Schools of Nursing for maintaining uniformity.

Each student is required to maintain the record of following assignment in clinical areas in each year:
First Year

| a) | Nursing care plan | - | 4 in medical / surgical wards. |
| b) | Daily Diary | - | 1 each in urban and rural community field. |
| c) | Health – Talk | - | 1 each in Urban and rural community field. |
|     | Family Study including | - | 1 each in Urban and rural community field. |
|     | Health assessment of an | - | 1 each in Urban and rural community field. |
|     | Individual in the family | - | 1 each in Urban and rural community field. |

Second Year

(a) **Medical Ward**

| Nursing Care Plan | - | 2 |
| Case Study | - | 1 |
| Case Presentation | - | 1 |
| Drug Study | - | 1 |

(b) **Surgical Ward**

| Nursing Care Plan | - | 2 |
| Case Study | - | 1 |
| Case Presentation | - | 1 |
| Drug Study | - | 1 |

(c) **Psychiatry Ward**

| Nursing Care Plan | - | 1 |
| Case Study | - | 1 |
| Case Presentation | - | 1 |
| Drug Study | - | 1 |
| Process Recording | - | 2 |
| Mental Status examination | - | 4 |

Third Year

(a) **Pediatric Ward**

| Nursing Care Plan | - | 2 |
| Case Study | - | 1 |
| Case Presentation | - | 1 |
| Drug Study | - | 1 |
| Observation Report (New born) | - | 2 |

(b) **Maternity and Gynaecological ward.**

| Nursing Care Plan | - | 2+1 |
| Case Study | - | 1+1 |
| Case Presentation | - | 1+1 |
| Drug Study | - | 1+1 |
(c) **Daily Diary**

</tbody>
</table>

In addition to above, each student shall maintain a procedure book and midwifery case book signed by concerned / supervisor and Principle which is to be presented to examiner each year.

The above assignments are to be evaluated by concerned teachers for the purpose of internal assessment and shall be presented to the external examiner in a compiled form and it should be duly signed by her and should be stamped as cancelled after practical examination.
FIRST YEAR

1.1 BIO-SCIENCE
1.1.(1) ANATOMY AND PHYSIOLOGY

Course Description
This course is designed to help students gain knowledge of the structure and function of the human body and recognize any deviation from normal health in order to render effective nursing services.

General Objective
Upon completion of the course, the student shall be able to:
1. Describe in general the structure and functions of the human body.
2. Describe in detail the structure and functions of the different organs and systems in the human body.
3. Apply the anatomical and physiological principles in the practice of nursing.

1.1. (2) MICROBIOLOGY

Course Description
This course is designed to help students gain knowledge and understanding of the characteristics and activities of micro-organisms, how they react under different conditions and how they cause different disorders and diseases. Knowledge of these principles will enable student to understand and adopt practices associated with preventive and promotive health care.

General Objectives
Upon completion of the course, the students shall be able to:
1. Describe the classifications and characteristics of micro-organisms
2. List the common disease producing micro-organisms
3. Explain the activities of micro-organism in relation to the environment and the human body.
4. Enumerate the basic principles of control and destruction of micro-organisms.
5. Apply the principles of microbiology in nursing practice.

**1.2 BEHAVIOURAL SCIENCES**

**1.2.(1) PSYCHOLOGY**

**Course Description**

This course is designed to help students understand the dynamics of human behavior and concept of mental health. This shall enable them to develop positive attitude and good inter – personal relationships in the practice of nursing in all health care settings.

**General Objectives**

Upon completion of the course, the students shall be able to:

1. Describe the concept of mental health and psychology.
2. Explain the dynamics of human behavior, personality and learning.
3. Discuss the role of adjustment mechanisms and emotions in health and illness.
4. Demonstrate skills in the application of principle of psychology in nursing practice in all kind of health care settings.

**Total Hours – 45**

1.3. NURSING FOUNDATIONS  
1.3.(1) FUNDAMENTALS OF NURSING

Course Description
This course is designed to help students develop an ability to meet the basic health need of the patients with regard to nursing care and develop skill in the competencies required for rendering effective patient care.

General Objectives
Upon completion of the course, the students shall be able to:

1. Describe the physical, mental and social adjustment required of a sick individual and his family.
2. Carry out basic nursing techniques and care with the application of sound scientific principle.
3. Explain the concept of comprehensive nursing care.
4. Develop skills in assessment, planning, implementation and evaluation of the nursing care rendered to the patients.
5. Communicate effectively and establish good interpersonal relationship with the patients, their relatives and other health team members.
6. Demonstrate skills in observation, recording and reporting.
7. Recognize and utilize opportunities for planning and implementing need based health teaching programme(s) for individuals, groups, families and communities.

**Introduction to clinical Pharmacology**

Administration of medication:

- General Principles/Considerations:
  - Purposes of medication
  - Principles: 5 rights, special considerations, prescriptions, safety in administering medications and medication errors
  - Drugs forms
  - Routes of administration
  - Storage and maintenance of drugs and nurses responsibility
  - Broad classification of drugs
  - Therapeutic effect, side effect, toxic effect, allergic reaction, drug tolerance, drug interactions
  - Factors influencing drug actions
  - Systems of drug measurement: metric system, household measurements.
  - Converting measurements units: conversion within one system, between systems, dosage calculations.
  - Terminologies and abbreviations used in prescription of medications.
  - Oral drug administration: oral, sublingual, buccal: equipment and procedure.

**Placement:** First Year  

**Time:** Practical – 924 hours  
(200 lab and 724 clinical)

**Course Description:** This course is designed to help the students to acquire knowledge, attitude and skills in techniques of nursing and practice them in clinical settings.

The nurse on completion of this course will be able to:

- Demonstrate appropriate attitudes and skills in providing comprehensive nursing care to patients based on nursing process.
  - Assess the nursing needs of the clients by collecting complete data, making relevant observation and analyse the data collected.
  - Plan for appropriate nursing care by prioritizing the needs and executing competent nursing actions.
  - Implement effective nursing care by integrating scientific principles for maintaining health optimum.
  - Promote the health of the individual and the community by giving appropriate health teaching.
  - Evaluate the patients response to nursing care provided.
- Apply the theoretical knowledge to the appropriate clinical nursing practice.
- Demonstrate skill in the use of problem solving methods in nursing practice.
- Contribute for promotion of health prevention of illness & restoration of health of people by working with other health team members.
- Gain knowledge of health resources in the community and the country.
- Demonstrate leadership skills in working with health team, community and others in the provision of health care.
- Recognize the need for continuing education for professional development.
- Demonstrate use of ethical values in their personal and professional life.
- Assist in research activities.

| Supervised practice in Lab General Medical and surgery wards | 200 724 (Minimum practice time in clinical area) | Performs admission and discharge procedure | **Hospital admission and discharge**  
Admission  
Prepare Unit for new patient  
Prepare admission bed  
Perform admission procedure  
New patient  
Transfer in  
Prepare patient records  
**Discharge/Transfer out**  
Gives discharge counseling  
Perform discharge procedure  
(Planned discharge, LAMA and abscond, Referrals and transfers)  
Prepare records of discharge/transfer  
Dismantle, and disinfect unit and equipment after discharge/transfer  
**Perform assessment:**  
□ History taking, Nursing diagnosis, problem list, Prioritization, Goals & Expected Outcomes, selection of interventions  
□ Write Nursing Care Plan  
Gives care as per the plan | □ Practice in Unit/hospital | □ Evaluate with checklist Assessment of clinical performance with rating scale  
□ Completion of Practical record |
| Communicates effectively with patient, families and team members and | Communication  
Use verbal and non-verbal communication techniques  
**Prepare a plan for patient teaching session** |
|---|---|
| Maintains effective human relations | Role-plays in simulated situations on communication techniques-1  
Health talk-1 |
| Develops plan for patient teaching | Assess role plays with the checklist on comm.-unications techniques  
Assess health talk with the checklist  
Assessment of comm.-unications techniques by rating scale |
| Prepares patient reports  
Prepares reports  
Monitors vital signs | Write patient report  
Change-of shift reports, Transfer reports, Incident reports etc.  
Present patient report  
**Vital signs**  
Measure, Record and interpret alterations in body temperature, pulse  
Vital signs of assigned patient  
Lab practice  
Measure Vital signs of assigned patient |
| Performs health assessment of each body system | Write nurses notes and present the patient report of 2-3 assigned patients  
Assessment of performance with rating scale  
Assessment of each skill with checklist  
Completions of activity record |

1.4 COMMUNITY HEALTH NURSING

1.4.(1) COMMUNITY HEALTH NURSING - I

**Course Description**
This course is designed to help students gain an understanding of the concept of community health in order to introduce them to the wider horizons of rendering nursing services in a community set-up, both in urban and rural areas.

**General Objectives**
Upon completion of this course, the students shall be able to:

1. Describe the concept of health, community health and community health nursing.
2. State the principles of epidemiology and epidemiological methods in community health nursing practice.
3. Explain the various services provided to the community and role of the nurse.
4. Demonstrate skills to practice effective nursing care of the individuals and families in the clinics as well as in their homes, using scientific principles.

III. Describe the community organization to promote environmental health.

**Community organizations to promote environmental health**

A) Levels and types of agencies:
- National, state, local
- Government, voluntary and social agencies.
B) Legislations and acts regulating the environmental hygiene.
1.4.(3) **Health Education and Communication skills**

**Course Description**

This course is designed to help students to
1. Acquire the concept of health education and develop an ability to select and/or prepare appropriate audio-visual aids and use them effectively to communicate with the individuals and community
2. Understand the principles of communication and counseling, and its application in nursing practice.

**General Objectives**

Upon completion of this course, the students shall be able to:
1. Describe the concept of health education, communication skills including soft skills, audio – visual aids and health education agencies.
2. Identify and utilize opportunities for health education.
3. Describe the application of information technology in preparation and use of various health teaching aids.
4. Develop effective communication and counseling skills.

1.5 English

Course Description
This course is designed to help students develop an ability to comprehend spoken and written English, so as to communicate effectively.

General Objectives
Upon completion of this course, the students shall be able to:
1. Read and write correct English.
2. Communicate effectively in English.

Total Hours-30

1.6 COMPUTEREDUCATION

Course Description:-
This course is designed to help students gain a basic understanding of uses of computers and its application in nursing.

General Objective:-
Upon completion of this course, the students shall able to:
1. Describe the basic disk operating system.
2. Use computer for data processing
3. Use Micro-soft office programs.
4. Use computer in patient Management System.
5. Use E-mail and internet

**SECOND YEAR**

**2.1 Medical Surgical nursing – I**

**Course Description:**
This course shall help students understand the concept of disease and disease process. Students shall be able to gain knowledge and develop understanding of various medical, surgical disorders and disease. They shall be able to give comprehensive nursing care to patient with these diseases.

**General Objective:**
Upon completion of this course, the students shall able to:
1. Describe the cause, symptoms, treatment and prevention of Medical Surgical Diseases.
2. Demonstrate skill in carrying out nursing technique and procedures with the applicant of scientific principles.
3. Discuss nursing process and provide nursing care to patients with medical surgical/diseases.

2.2 Medical Surgical nursing – II

Course Description:-
This course shall help students understand the concept of disease and disease process. Students shall be able to gain knowledge and develop understanding of various medical surgical specialty disorders and disease. They shall be able to give comprehensive nursing care to patient with these diseases.

General Objective:-
Upon completion of this course, the students shall able to:
1. Describe the cause, symptoms, signs, treatment and prevention of diseases classified under medical Surgical Specialties.
2. Demonstrate skill in carrying out nursing technique and procedures with the applicant of scientific principles.
3. Prepare nursing care plan using nursing process and apply it in provide care to patient with these diseases.

### 2.4 CHILD HEALTH NURSING

**Course Description:**
This course is designed to help students develop and understanding of the concept of child health, the trends in child care and the health problems of children. This shall enable the students to meet the needs of the children, in health and sickness.

**General Objective:**
Upon completion of this course, the students shall able to:
1. Explain the concept of child health, the principles underlying child care trends in pediatric nursing.
2. Describe normal growth and development of children, so as to recognize deviations for normal health and care of healthy children.
3. Demonstration skill in meeting the needs of the sick infants and children based on the IMNCI guidelines of GoI.

THIRD YEAR PART-I

3.1 MIDWIFERY AND GYNECOLOGICAL NURSING

Course Description:-
This course is designed to help students acquire knowledge and gain skills to meet the needs of women during pregnancy, labor and puerperium and care for the newborn.

General Objective:-
Upon completion of this course, the students shall able to:
1. Describe the health needs of women in pregnancy, labour and puerperium.
2. Identify deviation(s) from normal pregnancy, labour and puerperium and take appropriate action.
3. Demonstrate skills in providing antepartum, intrapartum and postpartum care to the mother as well as care to the new born as per the SBA guidelines of Government of India.
3.1(1) **MIDWIFERY**
