

# WEBINAR: Disability-Inclusive Maternity Care

October 16, 2025 (Thursday)

2:30 to 4:00 PM India time

In collaboration with

This webinar aims to enhance the understanding of maternity care health providers on the linkage between disability and maternal health. Participation in the webinar provides the opportunity for discussion on systemic, cultural, and clinical barriers that may impact care and outcomes.

#### Key Topics:

- **Understanding Disability:** Definitions, classifications, and prevalence among women of reproductive age.
- **Barriers to Care:** Physical, attitudinal, and systemic challenges in accessing maternity services.
- **Health Inequities:** How disability intersects with gender, violence, and social determinants of health.
- **Adverse Pregnancy Outcomes:** Increased risks and complications faced by women with disabilities during pregnancy.
- **Inclusive Language & Communication:** Promoting respectful, person-centered and right based communication in maternity care.
- **Policy Commitments:** Review of international and national framework and global commitments to advance disability inclusive maternal health care.

#### Why Attend?

Gain insights into the unique needs of women with disabilities during pregnancy and foster inclusive, respectful and equitable maternity care.
