

2 CNE Credits

Global Summit on Nursing & Digital Health 2026*

World's Only Summit Focused on
Nursing and Digital Health

Transforming Healthcare Delivery Through
Nursing and Digital Health

Bharat Mandapam,
New Delhi

20th November
2026

*Nurses will have access to this session along with focused GDHS 2026 Main Stage sessions on technology and nursing across both days, i.e., 20 & 21 November 2026.

Message from the Summit Chair

Dear Friends,

Greetings.

A few years ago, I approached Dr. T. Dileep Kumar and shared that we wished to start a summit on Nursing and Digital Health. We were overwhelmed by his passion and support to uplift the profession of nursing. Since then, we have not looked back. The nursing summit has grown bigger year-on-year. Last year, Dr. José Luis Cobos Serrano, President, International Council of Nurses (ICN), came to India and addressed the summit. This year in 2026, Dr. T. Dileep Kumar is the summit co-chair.

We all know that healthcare cannot transform without nurses, and in the age of artificial intelligence, nursing leadership has never been more important. Since 2024, nurses from across India have made the Global Digital Health Summit a resounding success. This year, we are taking nursing to the heart of the Summit. Besides a dedicated Global Summit on Nursing and Digital Health (with 12 CNE Hours & 2 CNE Credits), nursing is also integrated into the main-stage deliberations on the future of healthcare.

For nurses, this is your once-a-year opportunity to step outside the boundaries of the institution and see where healthcare is heading with the integration of artificial intelligence. In two intensive days, nurses will gain extensive insights into artificial intelligence and healthcare delivery.

They will experience the **Hospital of the Future (we are building it onsite for the summit)** and the **Clinician of the Future** and learn how Digital Health, including AI, remote monitoring, smart hospitals, automation, robotics, data-driven care, and new models of patient engagement, is rapidly changing how care is delivered. These innovations will soon become integrated into your workflow and hospital.

Your support and participation have been our strength, and we will do all within our ambit to make Indian nursing lead the transformation of healthcare. We hope that you will continue to support the professional development of nurses through this summit and help nurses serve the nation with their full potential.

I look forward to your active support and participation.

See you at Bharat Mandapam, New Delhi, on 20th and 21st November 2026.

Dr. Rajendra Pratap Gupta

Summit Chair,
Global Digital Health Summit

Co-Chairs

Dr. T. Dileep Kumar

Hear from the leaders:

This conference is highly appropriate for updating our knowledge and skills on the new innovations emerging in Digital Health, which will help nurses and midwives utilize them in their daily healthcare practice. The nurses and midwives who attended conveyed that this is the best conference they have attended.

- Dr. T. Dileep Kumar

President, Indian Nursing Council (INC); Board Member, International Council of Nurses (ICN) (SEARO); Ex-Nursing Adviser, Government of India

This Summit is very important because it brings together nurses, physicians, and other healthcare professionals on a single platform. It provides a valuable opportunity to learn, collaborate, and stay updated on the latest innovations shaping the future of healthcare.

- Dr. José Luis Cobos Serrano

President, International Council of Nurses (ICN)

I have been attending this conference for the last two years, and it has been fantastic. Every year, it gets a notch better. As a nurse, it has significantly enhanced my knowledge. I have learned about many innovations taking place globally, which have truly helped expand my knowledge base.

-Lt. Col. Sarvjeet Kaur

Secretary, Indian Nursing Council

This is the only conference in the world dedicated to Nursing & Digital Health, and the organizations supporting this conference have a phenomenal brand recognition and respect because they enable us to keep the registration fees for nurses low. Thanks to the supporters of the Summit.

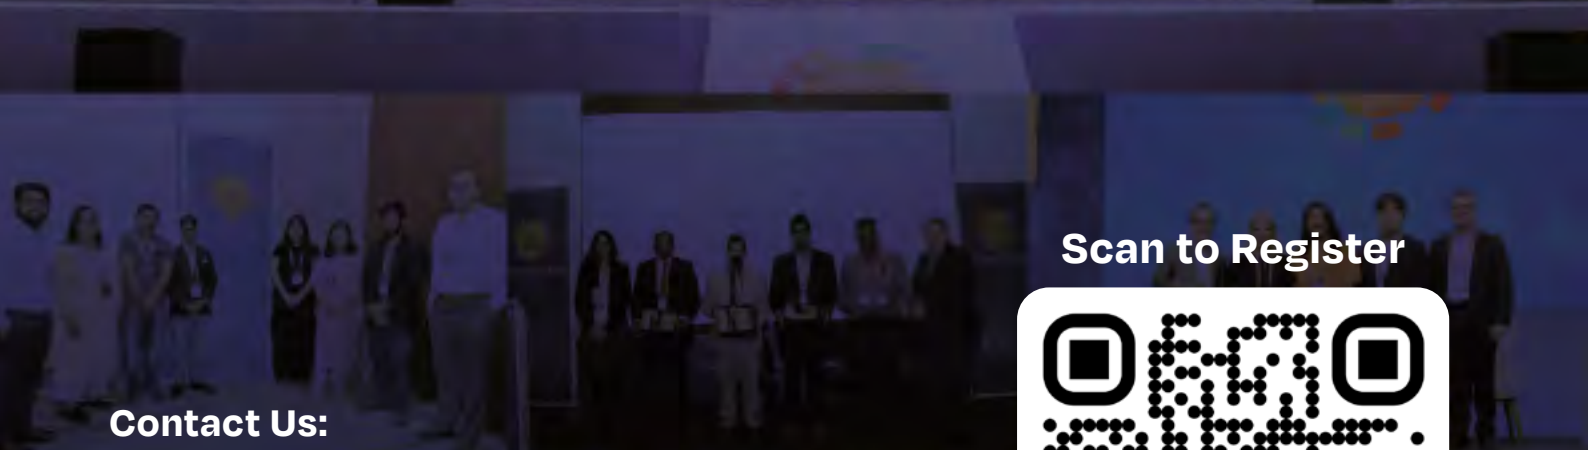

- Ms. Mevish P. Vaishnav

President, Global Digital Health Summit
